

Living

DEVELOPED IN COOPERATION WITH SELECTED CREATIVE DANISH DESIGNERS

WO living is designed for you who love Scandinavian design, Danish produced quality and full flexibility in the interior.

GROW

DESIGNED BY CHARLOTTE HOLM SCHAU

A SIMPLE DESIGN THAT GROWS WITH YOU

GROW is a unique shelving unit system that grows according to your needs. With beams made of solid sustainable European oak and shelves covered with linoleum on all surfaces. All natural and very beautiful products.

GROW is designed by Charlotte Holm Schau, a Danish furniture and interior designer. The idea was to design a functional and classic shelving system without limitations, while giving it a lighter look than the traditional bookcase shelving systems.

GROW is produced with full respect for sustainability with linoleum on both sides and the edge as well. Linoleum consists exclusively of natural materials, and its matt, warm and soft surface is a sound sound-absorbent, anti-bacterial and colourfast. What's more, linoleum does not reflect the sun's rays.

GROW is built around the beam system, but metal shelf brackets and leather straps are also available for hanging a single shelf.
